

OCUVITE® LUTEIN ANTIOXIDANT SUPPLEMENT

- Ocuvite® is the #1 Recommended vitamin-mineral supplement brand among Eye-Care professionals.**
- Lutein is a carotenoid found in dark leafy green vegetables such as spinach. Carotenoids are concentrated in the Macula, the part of the eye responsible for central vision. Clinical studies suggest that Lutein plays an essential role in maintaining healthy central vision by protecting against free radical damage and filtering blue light.*
- Lutein levels in your eye are related to the amount in your diet. Ocuvite Lutein contains 6mg of Lutein per capsule. The leading multi-vitamin contains only a fraction of the amount of lutein used in clinical studies.
- Ocuvite® Lutein helps supplement your diet with antioxidant vitamins and essential minerals that can play an important role in your ocular health.*

RECOMMENDED INTAKE: Adults: One capsule, one or two times daily or as directed by your doctor.
